ITEC Entertainment has been designing, fabricating, programming and integrating Ride Control Systems for themed attractions since 1990 for theme parks around the world.

A safe and reliable Ride Control System is a critical component to every ride integrated attraction.

ITEC's Ride Control Systems are designed to redundantly monitor all safety aspects of the attraction as well as provide extensive diagnostics for operations and maintenance. ITEC Entertainment has a proven record of providing safe and reliable Ride Control Systems for today's most complex integrated themed attractions.
